

Hi

thank you for your enquiry.

In addition to the quote for the printing of your book there are some items which clients require and others don't, hence the reason we itemise them separately. Listed below are the most common requirements in addition to the printing. Please feel free to ask if there are any other special requirements for your own book.

1. ISBN & Barcodes.

Bookprinting.co.nz can obtain your ISBN number, translate this into the necessary barcode and include it in the cover design for a one off charge of \$69+gst. It normally takes 4 to 5 days to obtain the number so you may need to take this into account if you have a deadline to meet. Also it is a legal requirement by the NZ National Library that if they issue an ISBN number they require you to send 2 full copies of your book for their archives. You may need to take this into account also if you are printing a small run of books.

2. Cover Design.

We can design basic cover layouts including title, spine, ISBN numbers & barcodes and any blurb required about the book or its author. Any photo or graphic you supply can be used on the cover. The basic cover design is put together using material which you supply and the fixed price for this service is \$120+gst. For clients requiring more sophisticated designs we suggest employing the services of a graphic design company. As our business is predominantly the printing of books there is a limit to the amount of time we can devote to design work. We will always work with you to try and accommodate any material you may wish to use.

3. Other Design Work

Any other design work specific to your book can be carried out at \$60+gst per hour. This many include changes to text or formatting but we strongly recommend that this is all done prior to sending in your file to keep costs down and that only PDF files are supplied for final artwork to reduce the likelihood of errors.

4. Proof Copies

A full printed proof copy is included in the quote price for your book. Should you require additional proof copies these are available and, as the price will vary from book to book, the price is available upon request.

many thanks

Dave Else
